

WiFi - Wireless Web Interface

The Wireless Web Interface Solution, along with the FuelForce 814, 894 or EXACTA controller, is a low cost solution for customers with a single fueling site and simple reporting requirements.

Customers save thousands of business dollars on installation costs. There is no need to excavate and run underground cabling and conduit to the fuel island.

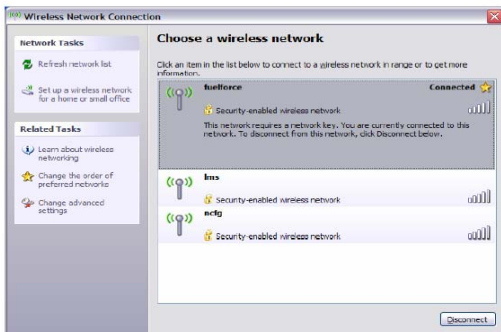

Communicate wirelessly with your Fuel Island up to 500 feet away using an on-site PC or Laptop with a wireless network card to maintain a simple listing of Vehicle/Driver Data and obtain Fueling Transaction Data when you want.

Advantages of Wireless Communication

- Increased Productivity And Profitability
- Lower Total Cost Of Ownership
- Removes The Need For Extensive Cabling
- Any Laptop Or PC With A Wireless Network Card Can Access The Fuel Island Controller With The Proper Password
- Communication Distances Up To 500 Feet
- No Need For Reporting Software - Uses Excel Spreadsheets

- **Secure**
- **Wireless**
- **Cost Effective**
- **FCC Compliant**

Your Wireless PC Automatically Detects The FuelForce Network
