FUELERVE.NET - Web Based Hosting

Here's where to find more information on Multiforce Systems products and services:

- www.FuelForce.com
- Phone: 609-683-4242
- Email : Sales@FuelForce.com

With today's user friendly web features, handling fuel management reports, alerts and fleet updates is as easy as on-line banking.

FuelServe.net™ is FuelForce's simple to use, internet based fuel management solution for updating and viewing fleet fuel usage information. Log in using any internet connected computer or smartphone, then instantly check the Dashboard for recent fueling events, priority events, and any alarm conditions. Adjusting vehicle, driver and pricing entries is quick and easy.

You have the ability to include additional vehicle, driver, and pricing variables, so you can track what is important to you. Other features include the ability to customize your preferences to display the column data and sequence order which is important to your operations. FuelServe.net is a great tool to provide fleet managers with accurate vehicle utilization and operating cost information without the administrative overhead or need for software on your computers.

Email sales@fuelforce.com or call 609-683-4242 to set up your 15 minute demo. We can show you how simple, functional & expandable fuel management has become.

- PEI 2009 **2**
- PADLOCK Plus - Lowest Priced System **2**

Multiforce Supports Federal GSA Program

Multiforce now offers two new opportunities that support Federal Government initiatives.

FuelForce products and services are now available for purchase through the GSA Multiple Award Schedule GS-07F-0311V. This means any federal agency or other governmental agency that has filed a disaster recovery plan with the federal government can purchase FuelForce products and services at reduced prices and with less administrative cost than going through an extensive bid process.

Also, we can now offer our Governmental clients the ability to provide fuel and maintenance services to Federal agencies and be reimbursed through the GSA SmartPay2 fleet card program without paying interchange fees.

You may be interested in applying for an agreement with the GSA for this program if you operate alternative fuel stations or have excess maintenance capacity in your shops. If you qualify, the GSA will reimburse you promptly at negotiated costs for fuel and routine maintenance. This is a good deal for everyone involved.

Multiforce will assist you on how to take advantage of these new cost saving opportunities. Simply email sales@fuelforce.com or call 609 693-4242 Ext 1.

DEF Fueling - Is your site ready?
Call us for solutions!

FuelForce fuel controllers offer full fuel management for marinas and small airports. Available in a compact KIT that easily installs in a Bennett 3800 retail electronic fueling dispenser or use a pedestal and connect to your existing mechanical fuel dispensers.

This is a great solution for marinas or small airports.

The same fuel controller allows you to set up "House Accounts" in addition to accepting cash! Eliminate attended fueling and misuse by using House Accounts, OCTANE debit card, and/or major credit cards. Now you can offer your customers 24 hour unattended fueling with receipts!

Upgrade your site for the upcoming season !

Offer your customers 24 hour fueling while eliminating motor-off's and cash theft.

Advantages:

- Eliminate Fuel Attendants !
- Offer Customers 24 Hour Fueling !
- Accept Major Credit Cards -
No Expensive P.O.S. Required !
- Has Printer for Customer Receipts !
- Full Fuel Management With Existing Pumps
or Add A Controller To Your New Pumps !
- Eliminate Cash Thefts and Big \$ Motor Offs !
- Lower Installation Costs !
- Stainless Steel Systems Available !

Small Airports - Credit Cards, House Accounts, and Cash Sales

Marinas - Credit Cards, House Accounts, and Cash Sales

PEI 2009 Las Vegas

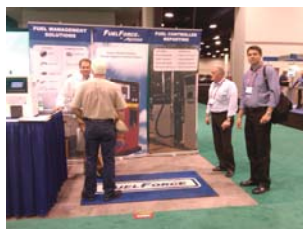

We want to thank all of our Distributors that took the time to visit with us in our booth at the PEI in Las Vegas!

The 2009 PEI was a great show for Multiforce and our distributors. Many of our distributors visited with us to talk about current customers and future projects.

Also, thanks to all who came to our Distributor Appreciation event at the Courtyard Marriott where we had a demonstration of our *FuelServe.Net* Hosting Service. *FuelServe.Net* is a fantastic service that you can offer your customers!
